EHAB SADIQ

ASP.NET BACK-END DEVELOPER

Minya, Maghagha, Egypt • +201033813411 • ehab.sadiq89@gmail.com • LinkedIn • GitHub

OBJECTIVE

Computer Science student at Nahda University with hands-on experience in .NET back-end development and a strong foundation in software engineering. Proficient in building scalable, efficient solutions using C#, ASP.NET Core, and SQL Server. Passionate about leveraging technical expertise to develop innovative back-end systems and contribute to team success.

WORK EXPERIENCE

Outlier AI

AI Coding Trainee

December 2024 - Present Remote

- Gained hands-on experience in developing and optimizing machine learning models.
- Contributed to AI-driven solutions, focusing on data preprocessing, model training, and evaluation.
- Engaged in research and implementation of advanced AI methodologies and tools.

COURSES

Data and AI Bootcamp

AMIT Learning & Orange Digital Center

December 2024 - 2024

- Developed machine learning pipelines for tasks such as sentiment analysis and emotion classification, leveraging Python and TensorFlow for accurate results.
- Deployed AI-driven applications, demonstrating a practical understanding of NLP, deep learning, and data preprocessing.

Full Stack Development Track (.NET)

Digital Egypt Pioneers Initiative (DEPI)

October 2024 - Present

- Built scalable web applications using the .NET framework, including C#, ASP.NET Core, Entity Framework, and SQL Server, with a focus on performance optimization.
- Completed intensive coding sprints and collaborative workshops, leading team projects that simulated real-world development challenges.

Developing Web Applications using Python

Information Technology Institute (ITI)

August 2023 - September 2023

- Created interactive web applications using Python, Flask, HTML, CSS, and SQLite, focusing on responsive design and optimized performance.
- Led a project team to develop a full-stack application, overseeing the implementation of user authentication, database integration, and system optimization.

EDUCATION

3rd CS Student

Nahda University in Beni Suef

October 2022 - Present

- Created a portfolio website project using HTML & CSS to showcase myself as a student.
- Led a team to work on the Ultrasonic Radar with Arduin project.
- Created a Swapify website using HTML & CSS & JavaScript An interactive website to organize elements and Execl files effectively and quickly.
- Relevant Coursework: [Data Structures, Algorithms, Database Systems, Software Engineering, Image Processing, etc.]
- cGPA: 3.61

SKILLS

Technical Skills:

- Back-End Development: C#, ASP.NET Core, SQL, Entity Framework
- Front-End Development: HTML, JavaScript, Angular
- Programming & Tools: C++, Python, Flask, Git, GitHub
- Database Management: SQLite, SQL Server

Soft Skills:

Leadership

- Problem-Solving
- Team Collaboration
- Communication
- Time Management

Languages:

- Arabic (Native)
- English (Professional Proficiency)
